

## **Program: Time Error Correction**

### **Overview**

The Time Error Correction program covers areas associated with the North American Electric Reliability Council (NERC) Standards, Policies and Procedures, as well as the WECC Standards, Policies and Procedures associated with Time Error Correction and the impacts on inadvertent interchange. The program will consist of lecture, group and individual interchange, as well as a pre-instruction and post-instruction test.

### **Course Content**

Identify the purpose and goal of Time Error Correction.

Review of the NERC and WECC Standards, Policies and Procedures associated with Time Error Correction and impacts on inadvertent interchange.

Major Attributes: Highlight, review and understand the major elements of the policies and standards and how reliability is preserved with no business impacts. In addition, it will incorporate the WECC automatic time error correction and associated impacts on inadvertent.

Process: Describe NERC and WECC Standards, Policies and Procedures, identify and clarify outstanding issue. In addition, demonstrate the correlation between the WECC and NERC relating to the Standards.

### **Target Audience**

The program is intended for control area and support personnel operating the Bulk Electric System wishing to expand their knowledge and enhance their skills associated with meeting the Standards, Policies and Procedures while maintaining reliability. It is intended to provide attendees with a comprehensive understanding of the Standards, guidelines, processes and philosophies which will assist them in performing their day-to-day tasks.

**NERC CEHs:** 1 NERC CEHs

**WECC CEHs:** 1 WECC CEHs

**Registration Fee:** Northwest Power Pool Members No Fee, Non-Members \$75.00
